Online Solution features

The online Solution is organized in 3 tabs allowing access to 3 sets of information.

Solution Sheet: Discover the Solution Sheet and its characteristics (Challenge, Benefits etc.)

Solution support: Access the contacts dedicated to the Solution (Regional Sales Representatives, Entity Referent etc.) as well as supports related to the Solution (country review, presentations, etc.)
-> only for Internal Users

Segmentation Criteria: Consult the criteria of the Solution (waste family, segments, etc.) -> only for Internal Users

Follow a solution allows you to be kept informed of the latest news (additions, modifications on the solution).

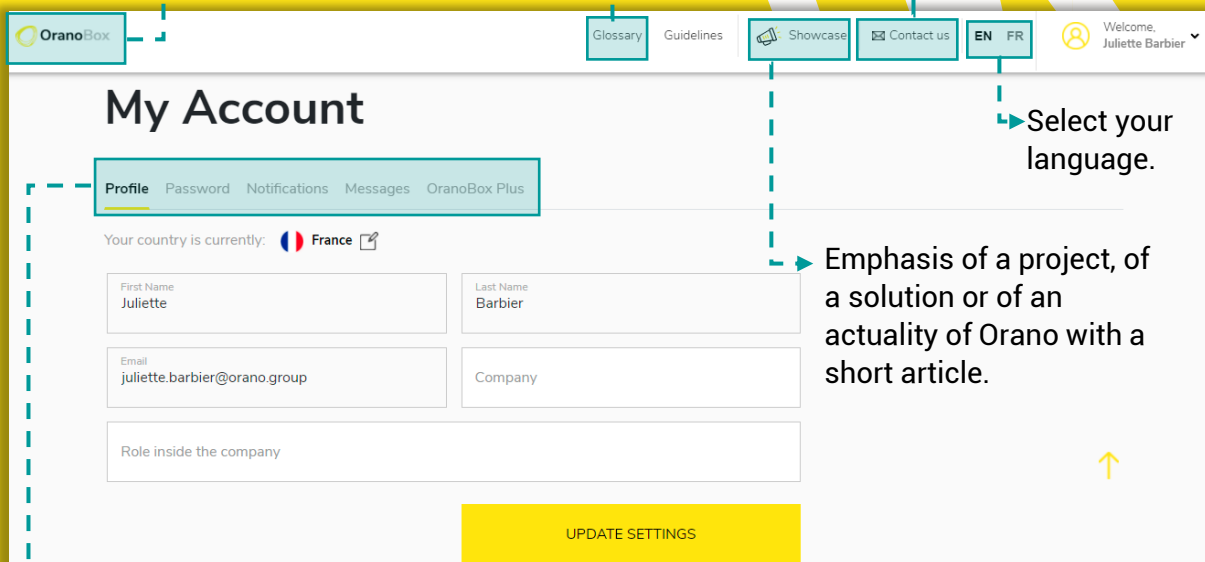

Add a solution to your selection allows you to keep solutions who interests you under the hand and to compare them easily.

Other features

Get access to the homepage without logging out.

Find basic definitions of Nuclear terms.

Send a message with your question regarding the OranoBox platform. The OranoBox Team will contact you following the message receipt.

→ Access your profile information
Change your password and profile information
Find the answer to a message sent
Manage Solutions for which you want to receive notifications or follow up.

→ Select your language.

→ Emphasis of a project, of a solution or of an actuality of Orano with a short article.
